EXHIBITOR'S FROM 2022

SEA TECH WEEK® is a week-long international event, organised by Campus mondial de la mer and operated by Technopôle Brest-Iroise, focusing on marine science and technology. It brings together every two years in Brest, France, leading international experts in various marine-related disciplines. Sea Tech Week® includes a scientific and technology conference, a professional exhibition, B2B meetings and social events.

The event provides opportunities for scientists, businesses, clusters, students, etc. to share advances in research and innovation, develop business contacts, and strengthen partnerships and collaborations.
